At the time of his death in 1926, Antoni Gaud í was arguably the most famous architect in the world. He had created some of the greatest and most controversial masterpieces of modern architecture, which were as exotic as they were outrageous. But little is known about the shadowy figure behind the swirling, vivid buildings that inspired the Surrealists. This masterful biography brings both man and architect powerfully to life against the changing backdrop of Barcelona and Catalonia. Gijs van Hensbergen leads us through the design and construction of Gaud í ' s most significant buildings -- revealing their innovation and complexity, and demonstrating the growing relevance of Gaud í ' s architecture today.

Author Michelle Houts and illustrator Bagram Ibatoulline explore the magic of one of the seaside's greatest wonders and the bonds that link us through time. One summer, a boy named Thomas visits his grandmother at her seaside cottage. She gives him a magnifying glass that once belonged to his grandfather, and with it Thomas explores the beach, turning grains of sand into rocks and dark clamshells into swirling mazes of black, gray, and white. When his grandmother shows him a piece of sea glass, Thomas is transfixed. That night he dreams of an old shipyard and the breaking of a bottle. Could the very piece of sea glass on his nightstand have come from that bottle? For the rest of the summer, he searches for more sea glass and hopes to have dreams that will reveal more of the sea's secrets. A stunning ode to stories and the seaside, this picture book invites readers to imagine the ocean of possibility that lives in every small or forgotten treasure.

In a brilliant performance worthy of the composer, M. T. Anderson and Petra Mathers present a picture-book biography of the singular Erik Satie. Throughout his life, Erik Satie wanted to make a new kind of music, a kind of music both very young and very old, very bold and very shy, that followed no rules but its own. At first glance, Erik Satie looked as normal as anyone else in Paris one hundred years ago. Beyond his shy smile, however, was a mind like no other. When Satie sat down at the piano to compose or play music, his tunes were strange and dreamlike, his melodies topsy-turvy and discordant. Many people hated his music. Few understood it. But to Erik Satie there was sense in nonsense, and the vibrant, surreal compositions of this eccentric man-child would go on to influence many artists.
