Pharmacy Technician Laboratory Manual provides pharmacy technician students with opportunities for the practical application of theory by supplying different scenarios one might encounter working in a pharmacy. This manual will give students and educators alike different lab exercises that range from prescriptions, anatomy and physiology, law and ethics, HIPPA, compounding and infectious disease. Each chapter of this manual will provide a brief refresher on theory while focusing on lab exercises. Each chapter also includes questions and answers relating to the exercises, and a teachers manual is provided.

- It covers all feasible exercises in pharmacology. The exercises vary from simple demonstration to computer simulation models - The manual has been written keeping in view the desired shift in the pharmacology practical teaching from pharmacy based redundant experiments to more meaningful.
