In English and in Dutch the
written text doesn't
correspond with the way you
pronounce it. These ways of
pronunciation differ from
each other. As you may know,
an important difficulty with
pronunciation in Dutch is
the adding or ignoring of
sounds and letters. English
is known for completely
changing the sounds of
letters or letter
combinations. An example is

One of the most significant differences between English and Dutch grammar is word order. Both Dutch and English use the SVO pattern (subject - verb - object) as a basic sentence structure. Still, the word order that is used in the two languages does not always follow the same pattern. Finite and non-finite verbs

Dictionary uses the same technique of gluing words together in order to create a specific term - just like German and English. Here are a few examples of compound words in English and Dutch. As you can see, some Dutch words follow the same structure as their English siblings, while others are glued together like their German counterparts.

Old Dutch branched off more
or less around the same time
that Old English (Anglo-
Saxon), Old High German, Old
Frisian, and Old Saxon did.
The early form of Dutch was
a set of Franconian dialects
spoken by the Salian Franks
in the fifth century, and
thus, it has developed
through Middle Dutch to
Modern Dutch over the course
of 15 centuries. During that
period, it forced Old
Frisian back from ...

Dutch is from the same family as English and German. English students frequently say to me that Dutch is the easiest language to learn. It makes sense because Dutch is part of the Germanic branch of the Indo-European family of languages, just like English. And if you compare it to another language of that family, German, it's much easier.
