related examinations written by O.J. Olaoye is a complementary text to the various textbooks that have been written in the subject area. The book has five sections and twenty six chapters on all the biology topics. This book has become timely in view of the poor results that are being witnessed in the UTME examination especially in the sciences and mathematics, biology inclusive. These majorly are due to poor or inadequate access to good study materials. Each chapter has annotated topics followed by copious specimen questions on some past UTME and POST -UTME examination, for practice and emphasis. The topics in each chapter are adequately treated and with clarity. The illustrations are simple but effective. The author has done a lot of work and put in efforts to come out with a very readable and useful text. It is highly recommended to all the students aspiring to undertake the UTME and POST-UTME examination, in order to improve highly their chances of success. O.A. Sofola B.Sc, M.Sc, M.B.B.S (Lagos), Ph.D (Leeds), FAS (Nig.) Professor of physiology, College of Medicine, University of Lagos Former Vice Chancellor, OOU, Ago- Iwoye. Ogun State.

desire to fall truly, madly and deeply in love. A lyrical and moving story of unfulfilled love fraught with the weight of history, race and geography and intertwined with questions of belonging, aging, faith and family secrets. In Dependence explores the complexities of contemporary Africa, its Diaspora and its interdependence with the rest of the world.

"The present book has been written with the objective to cover the syllabus of Courses prescribed at country level by V.C.I. and I.C.A.R. for B.V.Sc. & A.H students and for B.Sc. (Ag.) students of Indian Universities on Animal Genetics, Population Genetics and Animal Breeding, particularly in Indian context. Hope this book will be of great help and great use in general to all interested in the subject and particularly to the under-graduate and post-graduate students, to the teachers and for those who appear in All India Competitive Examination of JRF, SRF, NET, SET, and others. This book has covered all the topics of the subject of animal genetics and breeding prescribed in the syllabus. The entire subject matter has been spread over 27 chapters. The first 10 chapters of the book have been devoted to principles of Animal Genetics, next 9 chapters to Population Genetics concerning with the genetic structure of population for qualitative and quantitative characters and last 8 chapters to Animal Breeding covering the methods of exploitation of genetic variation for the genetic improvement of farm animals "

In important respects, this book represents an independent approach to Yoruba grammar. It

attempts to present the Yoruba language as it really is, rather than as seen largely from the perspective of other languages. The grammatical structure of the language is thus presented in a new way. The major parts of speech of the language are, for the first time, established uniformly on the criteria of function alone. A chapter is devoted to a systematic and novel treatment of each such part of speech, related both to the wide array of sentence types, and to its sounds and the way they are combined in words.

This is About a pampered boy, Obuechina Maduabuchi.....Only brother of five older sisters and a younger one, prize pupil in school, apple of his doting mother's eye, eight years old and hopelessly spoilt.In a vain attempt to salvage his character, his father decides he must be sent away as houseboy to a teacher and his wicked wife.

This brief version ofThe Human Polityoffers the same personal, engaging introduction to political science in a shorter format-ideal for professors interested in incorporating outside readings into their course. The text discusses the nature of politics and political institutions, behavior, and ideologies within a comparative framework.
