“What makes you think black people will vote for you? Because the word on the street is, you’re a racist.” With those blunt words to then-presidential candidate Donald Trump, Pastor Darrell Scott began a journey he never expected to

take—becoming the future president’s most prominent African-American supporter and advisor. In *Nothing to Lose*, Pastor Scott recounts how and why he boarded “the Trump Train,” revealing the considerable difficulties he experienced along the way. As his story progresses, Pastor Scott highlights the

Two lonely towns in Colorado: Hope and Despair. Between them, twelve miles of empty road. Jack Reacher never turns back. It's not in his nature. All he wants is a cup of coffee. What he gets is big trouble. So in Lee Child's electrifying new novel, Reacher—a man with no fear, no illusions, and nothing to lose—goes to

war against a town that not only wants him gone, it wants him dead. It wasn't the welcome Reacher expected. He was just passing through, minding his own business. But within minutes of his arrival a deputy is in the hospital and Reacher is back in Hope, setting up a base of operations against Despair, where a huge,

The journey to undefended leadership doesn't stop at a personal discovery. Its

This book ventures into the territory of the pragmatic leader who has to make executive decisions, manage budgets, set targets, hire and fire, resolve conflict, improve performance, organize procedures and plan strategy. The author illustrates

Following books by Malcolm Gladwell and Dan Ariely, noted economics professor William L. Silber explores the Hail Mary effect, from its origins in sports to its applications to history, nature, politics, and business. A quarterback like Green Bay's Aaron Rodgers gambles with

a Hail Mary pass at the end of a football game when he has nothing to lose -- the risky throw might turn defeat into victory, or end in a meaningless interception. Rodgers may not realize it, but he has much in common with figures such as George Washington, Rosa Parks, Woodrow Wilson, and Adolph Hitler, all

of whom changed the modern world with their risk-loving decisions. In *The Power of Nothing to Lose*, award-winning economist William Silber explores the phenomenon in politics, war, and business, where situations with a big upside and limited downside trigger gambling behavior like with a Hail Mary. Silber

describes in colorful detail how the American Revolution turned on such a gamble. The famous scene of Washington crossing the Delaware on Christmas night to attack the enemy may not look like a Hail Mary, but it was. Washington said days before his risky decision, “If this fails I think the game will be pretty well up.”

Rosa Parks remained seated in the white section of an Alabama bus, defying local segregation laws, an act that sparked the modern civil rights movement in America. Towards the end of World War II, Adolph Hitler ordered a desperate counterattack, the Battle of the Bulge, to stem the Allied advance into

He said, “The outcome of the battle would spell either life or death for the German nation.” Hitler failed to change the war’s outcome, but his desperate gamble inflicted great collateral damage, including the worst wartime atrocity on American troops in Europe. Conservative political commentator Kathy Barnette shares how liberal leadership has failed the black community and how being a democrat is not synonymous with your skin color. During his first historic run for the presidency in 2016, Donald Trump made an impassioned plea to the black community. "Give me a chance," he said.

"What the hell do you have to lose?"

According to Kathy Barnette, black Americans have nothing to lose, except for crime ridden communities, neighborhoods that have become shooting galleries, more social welfare programs, and the mocking indifference of the Democrat party.

Barnette argues that even a cursory look

into the black community reveals the destabilizing effect liberal policies have had on the black family. There was a time when Barnette bought into the same lie as everyone else-that if you're black, you must be a democrat. In fact, she was born into the Democrat party just as much as she was born into brown skin. There was

no point of separation. Until she began to understand what it truly means to be black in America. Barnette contends that being black is more than just the color of her skin. It's a culture and a consciousness, too. In **NOTHING TO LOSE, EVERYTHING TO GAIN**, Barnette writes about why liberal policies have

failed the black community time and time again - and will fail the larger American community as Democrats rush to the hard Left of the party. From the "Great Society" to Kanye West's ongoing war with the liberal establishment, this book provides sharp, eloquent commentary on the most pressing issues facing black Americans

today: broken family structure, loss of identity, the legacy of slavery, and more. Barnette argues that President Trump has not been willing to presume that the "black vote" is a foregone conclusion resting comfortably in the back pockets of Democrats. With his plainspoken style and willingness to face harsh truths, the

president has done more for the black community than any president since Abraham Lincoln. Barnette insists the time is now to get back what has been lost, to fix the brokenness, and to recognize and support those who are actually working in our favor. We have nothing to lose, and even more to gain.
