Since its inception in 1968, software engineering has undergone numerous changes. In the early years, software development was organized using the waterfall model,

Get Free Workshop Book For Engineering

where the focus of requirements engineering was on a frozen requirements document, which formed the basis of the subsequent design and implementation process. Since then, a lot has changed: software has to be developed faster, in larger and distributed

Get Free Workshop Book For Engineering

teams, for pervasive as well as large-scale applications, with more flexibility, and with ongoing maintenance and quick release cycles. What do these ongoing developments and changes imply for the future of requirements engineering and software design? Now

Get Free Workshop Book For Engineering

is the time to rethink the role of requirements and design for software intensive systems in transportation, life sciences, banking, e-government and other areas. Past assumptions need to be questioned, research and education need to be rethought. This book

Get Free Workshop Book For Engineering

is based on the Design Requirements Workshop, held June 3-6, 2007, in Cleveland, OH, USA, where leading researchers met to assess the current state of affairs and define new directions. The papers included were carefully reviewed and selected to give an

Get Free Workshop Book For Engineering

Overview of the current state of the art as well as an outlook on probable future challenges and priorities. After a general introduction to the workshop and the related NSF-funded project, the contributions are organized in topical sections on fundamental concepts

Get Free Workshop Book For Engineering

of design; evolution
and the fluidity of
design; quality and
value-based
requirements;
requirements
intertwining; and
adapting
requirements
practices in different
domains.

This guide to making
and reading technical

Get Free Workshop Book For Engineering

explains the rules of the trade and engineering conventions. There are photographs and technical drawings to illustrate the text.
